Excellence through measurement

Dear user,

This pharmaceutical lot list was created for our customers by LGC Standards from actual data and correct at the time of printing. We retained all spelling and information as provided by the Pharmacopoeias.

The list was compiled with caution, however errors in this list may be possible, and LGC Standards is not responsible for any consequences as a result of these errors, may it be errors in the original Pharmacopoeia data, or from LGC Standards during compilation of this list.

Please contact your local office at <http://pharma.lgcstandards.com/contact> with any questions or to place an order.

A lot of USP RS may be used in its official applications as long as it is listed as "Current Lot" in the current (most recent) Official USP Reference Standards Catalog. Upon depletion, the lot is designated in the catalog as "Previous Lot" and a "Valid Use Date" is assigned. The last day of the indicated month represents the expiration date for the specified lot (e.g., "F-1 06/02" means lot F-1 was considered official through June 30, 2002).
